SUMMARY

Final-year B.Tech student majoring in Computer Science and Engineering at Budge Budge Institute of Technology, MAKAUT (West Bengal). Intermediate-level MERN Stack Developer with a solid grasp of Data Structures concepts. Proficient in JAVA and JavaScript with moderate knowledge of Python. Experienced in front-end development and eager to contribute to impactful software projects.

PROJECTS

CodeQuest

E-Learning Coading Platform | [Live Link](#) | Feb 2026 - April 2026

- Built a gamified e-learning platform for learning web development through interactive coding challenges and real-time feedback.
- Developed a responsive UI with Next.js, React, and Tailwind CSS, including a pixel-style game interface.
- Implemented an in-browser code editor (CodeMirror) for solving exercises alongside lesson content.
- Designed a scalable backend using Neon Postgres and Drizzle ORM, with course management and user progress tracking.
- Integrated authentication (Clerk), plan-based access control, and leaderboard system for gamification.
- Optimized performance and deployed a production-ready full-stack application.

Portfolio

Portfolio Website using React | [Live Link](#) | Oct 2025 - Nov 2025

- Developed a fully responsive portfolio website using React.js and Tailwind CSS, ensuring a seamless user experience across devices.
- Implemented interactive UI animations using Framer Motion to enhance user engagement and visual appeal.
- Optimized performance with lazy loading and component-based architecture, improving load times and efficiency.
- Designed reusable and scalable UI components, improving maintainability and development speed.
- Integrated smooth scrolling, transitions, and modern UI/UX practices for a polished user interface.

RazorPay Clone

Pament Gateway Website | [Live Link](#) | Oct 2025 - Nov 2025

- Developed a responsive Razorpay clone UI using Tailwind CSS, focusing on clean and modern design.
- Built a fully mobile-responsive interface, ensuring seamless experience across devices.
- Designed reusable components for a scalable and maintainable frontend structure.
- Replicated key payment flow UI elements to mimic a real-world payment gateway.

LANGUAGE

HINDI - Fluent

ENGLISH - Fluent

EDUCATION

B.Tech CSE (CGPA - 7.2)

Budge Budge Institute of Technolog

July 2022 - Jun 2026 Kolkata, West Bengal

Higher Secondary (Percentage - 79.60)

R.K.Dwarika College

Apr 2019 - Mar 2021 Patna, Bihar

KEY SKILLS

Programming Languages :

JAVA JAVASCRIPT PYTHON C

Web Technologies :

HTML CSS Tailwind CSS React Js

Bootstrap Node Js Express Js Mongo DB

Next Js TypeScript MySQL PHP

Development Tools:

Git GitHub Docker Kubernetes

VS Code Intellij OpenAI

CERTIFICATIONS

Web Development Course Bootcamp

Udemy, Hitesh Choudhery

Data Structures & Algorithms

Apna College, TUF

Machine Learning Traning

Indian Institute Of Internship, Kolkata

ACHIEVEMENT

Leetcode :

Solved 200+ DSA Problem

Geeksforgeeks :

Solved 350+ DSA Problem
